

Scientific Breakthrough Creates High-Gloss Super Shiny Force-Field As Strong As Titanium Steel

Protect your paint from UV sun damage, bug splatter, bird droppings, and even scratching...

Tired of your new vehicle looking dirty, scratched, dull and faded. According to vehicle resale experts one of the main determinations for vehicle value is the appearance. If the paint is damaged then the value drops dramatically. Nobody wants an ugly, scratched, faded vehicle. Shiny holds value and sells faster! Keep your vehicle looking new and never wax again.

This futuristic coating is an incredible mixture of nano technology and glass. Our Ceramic Liquid, Ceramic Armor™ 9H Nano Paint Sealant, is revolutionizing the paint protection industry. Ceramic Armor™ 9H Nano Paint Sealant Polish exhibits amazing UV protection, and bug and bird splatter are problems of the past. Amazing 5 year protection, never wax your vehicle again. Waxing your vehicle would be like wearing a very nice suit and putting a ripped T-shirt over it.

Other products we carry are "Invisible Car Bra", invisible bra for your car, 9H Boat Barrier (stop barnacles), 9H RV Guard (stop the chalky fade). RainGuard liquid polish for glass. InteriorGuard, ceramic for interiors.

9H Nano Ceramic Armor is changing the paint protection industry. Never in history has any product been able to protect your vehicle paint against love bug damage, bird droppings, UV sun

Dirt & grime do not stick

damage, salts, tar, graffiti, scratches, rock chips, color fading, acid rain and other damage.

Nano glass is environmentally friendly, an apple award winner, & non-toxic. We know that diamonds are the hardest substance known to mankind.

HOW HARD IS LIQUID NANO CERAMIC ?

According to the MOHS science of hardness, diamonds are rated at "10H", the hardest substance known. Vehicle paint is only "5H". Ceramic Armor™ 9H Nano Paint Sealant is rated at "9H", items rated as 9H are the second hardest known to science, the same as titanium steel. Once our 9H Ceramic Armor is installed your vehicle will be protected up to 5 years, & *will not crack, fade, yellow or peel*, and there is no need to ever wax again.
